**DETAILED ACTION**

Claims 1, 3-7, 11-12 and 18-29 are pending and have been examined.

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 26-28 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Independent claim 26 fails to provide a useful, concrete and tangible result and thus fails to provide a practical application of an abstract concept. The claims merely represent the communication of descriptive material.

***Response to Arguments***

Applicant's arguments with respect to claims 26-28 have been considered but are moot in view of the new ground(s) of rejection.
